1. Claims 1-2, 4-8, 10-13 and 15-18 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The Applicant's remarks stated on pages 7-8 filed on 12/29/2005 had been carefully reviewed. As the results, the statement of reasons for the indication of allowable subject matter is as following:

"None of the references of record alone or in combination disclose or suggest the combination of limitations found in the independent claims. Namely, claims ***1-2, 4-8, 10-13 and 15-18*** are allowable because none of the references of record alone or in combination disclose or suggest the features of, inter alia, "the calling the assigned telephone number accessing a service switching point, the service switching point encountering a specific digit string trigger in response to the calling, ***the service switching point sending a call-related query to a service control point in response to the specific digit string trigger,***" wherein ***the specific digit string trigger identified a SCP serving the signed-up calling plan, as defined in the paragraph [0009] of the Specification,*** and substantially described and connected to independent claims 1 and 5. Similarly, the none of the references of record, alone or in combination, disclose or suggest the features of, inter alia, "receiving a call-related query from a service switching point, the service switching point generating the call-related query in response to a specific digit string trigger," as substantially described and connected to independent claim 11.
